

AMBUJA TUBE FITTING MFG. CO.
Engineering India Ahead

INTRODUCTION

Ambuja tube fitting is established with a dedicated Team of Instrument Engineers who have always found that instruments being found incorrect due to leakage problems in its fitments .

Our 30 years of experience in instrument field has given us vast knowledge in how precision instrument tube fittings are to be manufactured . With Latest machining technology for our instrument parts we are now diversifying in the instrument tube fittings field . With vast knowledge from our instrument engineers and our very knowledgeable procurement engineers and with support from our Q.C team we at Ambuja tube fitting stands tall and intend to wipe out all the flaws in how tube fittings are used and their importance in every stage. Precision has now a new name in AMBUJA tube fitting manufacturer .

Ambuja tube fitting manufacturer is formed with a sere intension to provide tube fittings industry with quality world class products with innovative cost effective export oriented Instruments, tube fittings, flanges, valves. sheets, rods, Plates, which the world can take note off.

We intend to manufacture export quality tube fittings in different sizes using quality virgin materials like brass, stainless steel, monel, C.S etc as per standards or as per clients drawing or specifications.

Vision Mission & Values

Our vision is to provide india and world with break through technology in engineering sector and accelarating the growth of economy with knife edge technology.

Our mission is to develop a dynamic trading organization that provides the best technical, commercial and sales service in an effective manner.

Our values are deep routed in our products that show in our customers repeat orders.

INSTRUMENT TUBE FITTINGS

We at ambuja tube fitting Mfg co, manufacture & export quality , precision tube fittings which are widely demanded in Nuclear power plants ,Ship Building Industry, Railway Industries , Oil & Pharma Industries . We use high quality material which is purchased from reputed manufacturers makes our products sturdy and care free in long run .

Our machining capacity backed by our design department and Q.C. engineers which ensure all are tube fittings are of finest quality and ensures zero rejection . Since the main basis of Tube fittings is prevention of leak when applied sufficient torques . Our tube fittings are manufactured in such a way that it gives leak free seal on giving even little bit of torque .

We export tube fitting in all sizes and in various material of construction as desired by our esteemed clients . We offer to our customers single ferrule fittings , Double ferrule fittings , Male , female connectors , Elbows , Tee , Unions , Bulk head Unions etc in fractional as well as in Metric i.e Sizes in mm .

Our Quality Shows in Sales Growth

INDUSTRIES WE SERVE

Nuclear
Power Plant

Pharma
Industry

Oil
Refineries

Cement
Plants

Chemical
